Course Objective

Temporal Bone Dissection Course

Temporal bone dissection now forms an integral part of offerings by ENT surgeons. Cortical mastoidectomy, facial nerve decompression and cochlear implantation are procedures that require precision and practice. This course aims to equip delegates to perform all standard surgeries of the mastoid. It will give surgeons at the advent of their practice greater confidence to operate safely and effectively and manage complications, if any.

Who should attend

We welcome all of the ENT fraternity - Postgraduate students, consultants at the start of their surgical practice, and also senior surgeons who may wish to upskill themselves, and learn new techniques and practices in Temporal bone surgery and Cochlear Implantation.

Course Outline:

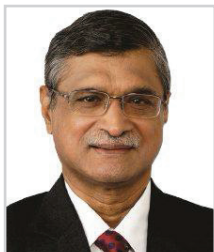

Presentation : Introduction and External Anatomy

Hands-on session 3D Printed Models

- Cortical mastoidectomy
- Facial recess approach and cochleostomy and CI electrode insertion
- Facial nerve dissection
- Endolymphatic sac approach
- Canal wall down Mastoidectomy

Faculty

Dr. Milind V Kirtane

Dr. Navin Patel
